### CITATION:

For meritorious achievement while participating in aerial flight as the Pilot of an F-18C Hornet Aircraft while attached to Strike Fighter Squadron EIGHT TWO embarked in USS THEODORE ROOSEVELT (CVN 71) deployed to the North Arabian Sea in support of Operation ENDURING FREEDOM on 23 November 2001. Commander Foley performed courageously as Airborne Interdiction Mission Commander for a coordinated Carrier Air Wing ONE and British Special Operations Ground Element assault against an Al-Qaida and Taliban strategic staging area in southwest Afghanistan. Commander Foley positioned his division of FA-18s along the ingress route of a British Ground Element convoy, expertly conducting tactical reconnaissance and providing critical route vectors, enabling ground special operations soldiers to zero in on the target location. Once established in the target area, Commander Foley swiftly coordinated a lethal and precisely timed Joint Direct Attack Munition and strafe aerial attack against known Man-portable Air Defense Systems locations and enemy troop concentrations, forcing enemy forces to retreat and enabling coalition ground forces to capture the strategic Taliban stronghold. By his superb airmanship, inspiring courage, and loyal devotion to duty in the face of hazardous flying conditions, Commander Foley reflected great credit upon himself and upheld the highest traditions of the United States Naval Service.

For the President,

V. E. CLARK  
Admiral, United States Navy  
Chief of Naval Operations

Commander

The President of the United States takes pleasure in presenting the LEGION OF MERIT to

COMMANDER STEPHEN R. FOLEY  
UNITED STATES NAVY

for service as set forth in the following

CITATION:

For exceptionally meritorious conduct in the performance of outstanding service as Commanding Officer and Flight Leader of the Navy Flight Demonstration Squadron (Blue Angels), Pensacola, Florida from September 2004 to November 2006. Commander Foley led the nation's premier flight demonstration squadron through two extraordinarily successful seasons, safely completing over 700 sorties in the exceptionally challenging and totally unforgiving regime of high-speed, very low altitude Blue Angel formation flight. As Flight Leader, he mastered the lead position in the four-plane Diamond and six-plane Delta formations and led more than 135 flight demonstrations in over 73 cities. His superior aeronautical skill and precise maneuver profiles ensured safe and professional flight demonstrations before millions of spectators throughout North America and Europe. Under his leadership, the Blue Angels were acknowledged for their efforts outside the cockpit, contributing significantly to the recruitment and retention of the Naval Service while also focusing specifically on the needs and interests of children. Commander Foley's dynamic direction, keen judgment, and inspiring devotion to duty reflected great credit upon himself and upheld the highest traditions of the United States Naval Service.

For the President,

  
J. K. MORAN  
Vice Admiral, United States Navy

Commander Naval Air Force  
United States Pacific Fleet

The President of the United States takes pleasure in presenting the

**CAPTAIN STEPHEN R. FOLEY**  
**UNITED STATES NAVY**

for service as set forth in the following

**CITATION:**

For exceptionally meritorious conduct in the performance of outstanding service as Commander, Strike Fighter Wing, U.S. Pacific Fleet from June 2007 to December 2010. An inspirational and visionary leader, Captain Foley consistently performed his demanding duties in an exemplary and highly professional manner. As the F/A-18 community leader, he distinguished himself through his exceptional ability to achieve superior performance across a variety of spectrums that included safety, training, logistics, maintenance, repair, manning, which ensured success in combat now and in the future. His direct Hornet leadership role produced valuable benefits and will be leveraged across the Naval Aviation Enterprise for years to come. As the driving force in such critical projects as the Lemoore Military Operations Area airspace and the stand up of a second Reserve Squadron Augment Unit on board NAS Lemoore, he enhanced Naval aviation and operational training environment for Lemoore-based squadrons. His foresight and preparation enabled exceptional results in multiple areas. With zeal for efficiency and success, his exemplary work continued by demonstrating tremendous foresight as the first command to introduce the AIRSpeed program into the organizational maintenance environment. Through many intricate events, his actions were instrumental in reducing operating costs and saving the Navy millions of dollars. By his dynamic direction, keen judgment and loyal devotion to duty, Captain Foley reflected great credit upon himself and upheld the highest traditions of the United States Naval Service.

For the President,
